Call Beebe Central Scheduling at 302-645-3278, select option 3 to schedule your laboratory appointment

Appointments are preferred for all laboratory tests. Central Scheduling can help you arrange a timely appointment at one of our convenient locations.

Preparing for your Appointment

- ▶ A lab order form is required when you call to make your appointment and should be presented when you arrive at a test location. It should include your providers full name, practice name, address, phone number and accurate diagnosis code.
- ▶ Insurance card and photo identification
- ▶ If your provider asks you to fast before having your blood work drawn you must fast for at least 8 to 12 hours. You should not drink any soft drinks, juice, milk or alcohol during that time. You may drink as much water as you would like. You may have black coffee or tea **ONLY**. No cream or sugar.
- ▶ If your provider has requested a urine test, make sure you drink enough water to provide an adequate urine sample.
- ▶ If your provider has requested a test that requires special handling or instructions, please be sure you understand and follow any designated preparation to ensure optimal results and to avoid retesting.

Your Results

Most results are sent to your provider within one to two days. Some specialized tests may take up to ten days. Only your provider can provide you with your results. Please speak to them with any questions, when to expect your results and if any next steps are needed.

Beebe Healthcare Laboratory offers a comprehensive range of clinical laboratory and pathology services. With more than 100 dedicated team members processing over 1.2 million tests annually, we are committed to providing accurate and reliable results along with the highest level of customer service for the providers and patients we serve.
