

Physician Office: How to Contact a Beebe Courier

The Beebe Courier Team transports laboratory specimens and delivers supplies throughout Sussex County and Southern Kent County. We operate regional routes on weekdays along with a limited Saturday schedule. Our couriers typically drive the same daily routes, providing your staff with familiar faces to ensure your specimens are handled properly. If you would like to establish Courier Services or if you require pick-ups after your practice is closed, a secure lockbox for after-hours retrieval can be provided.

Requests for specimen pick-up can be made from 08:00 AM - 6:00 PM weekdays by calling the Client Services Department or in the MCE Client Portal via a Dispatch Request .

Specimens may also be dropped off 24/7 at the Margaret H. Rollins Lewes Campus Hospital Laboratory in Lewes or at one of our other multiple Lab Express locations during their normal operating hours.
